Subject: RE: Missing test reports

Rafael, I am reviewing the links you provided for the test reports, and have encountered several issues. Any assistance you could provide would be greatly appreciated. Thanks!

- 15-SSW01, 50-SHSSW01, and 50-TRSSW01, England's Stove Works, Inc.
 - Please note that on the manufacturers website, the test report referenced in your email is not posted to the manufacturers website, a 2013 report is posted: <https://heatredefined-net.reamaze.com/kb/stove-support/epa-test-reports>
 - The link you provided does not include the summary report nor is it complete. Is this the report that they provided to you for review? Also the appliance referenced in the report title is not the same model referenced on EPA's database – can you help me understand this?

- Ladera CAT WRT3920WS, Innovative Hearth Products
 - The link you provided works but I still can't find this report by searching the manufacturers website or looking at the documents associated with this appliance on their website nor can I find it in a google search. Can you please advise how this report can be found without requesting a link from EPA?

 - Link is broken/unresponsive
 - Report is not available via searching the manufacturers website nor could I find it in any link on the model information

Subject: Missing test reports

Rafael, I have been trying to locate certification test reports for the following seven stoves that are certified for Step 2 under the residential wood heater NSPS.

- Kiwi VcV 2.1, EcoVision Ltd.
- 15-SSW01, 50-SHSSW01, and 50-TRSSW01, England's Stove Works, Inc.
- Ladera CAT WRT3920WS, Innovative Hearth Products
- Montecito Estate CAT and WCT6940WS, Innovative Hearth Products
- Q-Tee II Steel, Q-Tee II Glass, and Q-Tee II C, Rais A/S

- Focus 320 SBR and Onyx SBR, RSF / Industrial Chimney Company, Incorporated
- Thelin Parlour T-4000, Thelin

In some cases, I found EPA letters and/or old test reports but I could not locate the non-CBI test report as required by the rule. Can you please advise the URL that EPA used to verify compliance with the rule requirement?

Sincerely,

Lisa Rector

Hi Lisa,

Thank you for your January 29, 2020 email regarding test reports. We will follow up with those manufacturers and request the posting of the test reports per the 2015 WH rule if they are missing. If you have any questions, please let me know.
